

WEB 3 CURRICULUM

- **WEB3 AND BLOCKCHAIN:** Yat Siu, Chairman, Animoca Brands
Gain a thorough understanding of the underlying principles of blockchain technology and the concept of Web3. Learn about the key components and future potential of this emerging tech landscape.
- **SMART CONTRACTS:** George Melika, Founder, Volta
Learn the mechanics of smart contracts — self-executing contracts with the terms of the agreement directly written into code, transforming how we think about agreements in the digital age.
- **CENTRALIZED (CEX) & DECENTRALIZED EXCHANGES (DEX):** Haider Rafique, Global CMO, OKX
Compare and contrast the two main types of cryptocurrency exchanges, understanding their functions, benefits, and drawbacks in the digital asset market.
- **NON-FUNGIBLE TOKENS (NFT):** Dirk Lueth, Co-Founder, Upland
Explore the burgeoning world of NFTs, understanding their role in digital ownership and the creative economy.
- **WORKSHOP: CREATE A DECENTRALIZED WALLET:** Monica Liu, Web3 Global Growth, OKX
- **TOKENOMICS:** Eric Chung, Adjunct Professor, University of Southern California
Understand the economics behind digital tokens, covering aspects of their usage, valuation, and management within the Web3 ecosystem.
- **DECENTRALIZED FINANCE (DEFI):** Michael Heinrich, Co-Founder, Zero Gravity
Explore the principles and applications of DeFi, and how it's revolutionizing traditional financial systems through decentralization.
- **DECENTRALIZED AUTONOMOUS ORGANIZATIONS (DAO):** Miko Matsumura, Managing Partner, Gumi Gryptos Capital
Understand DAOs and how they represent a novel form of organizational structure, offering decentralized decision-making and community-driven governance.
- **WEB3 AND AI:** Xiaoliang Qi, Professor, Stanford University & Francis Yan, Co-Founder, Path Integral Technology
Investigate the fascinating intersection of Web3 and Artificial Intelligence, examining how these technologies can collectively drive innovation.
- **PITCH FEEDBACK**
Participants have the opportunity to pitch their Web3 ideas to Investors.
